**Subject:** 2013 slab reporting requirement for Flint Parts Recycling d.b.a. Lafayette Recycling

Scott,

This email is to inform you that our business, Flint Parts Recycling dba Lafayette Recycling, did NOT EXPORT ANY SLAB'S during the 2013 year. It is my understanding that if we did not actually export any slab's during 2013 then we do not have to file the required annual report, instead we simply just have to send in an email stating that we did not export any slab's during 2013 to fulfill our filing requirement with the US EPA.

Please send me an email confirming that this email I am sending to you does in fact fulfill our filing requirement with the US EPA for the year 2013. If this email does not fulfill the filing requirement please let me know exactly what it is I need to do if we DID NOT SHIP ANY SLAB'S during the year 2013.
